UGI — Assistant Programmer (Full-Time)

May ,2024 – June ,2025

- Maintained and enhanced institutional web portals serving **9,000+ users**.
- Developed **Educraze (E-learning platform)** with improved UI, navigation, and reduced bounce rate.
- Resolved system issues and recoded critical modules used by **10,000+ faculty and students**.
- Uploaded **5,000+ student records within 48 hours** for NAAC compliance.
- Managed documentation for **100+ faculty members**, ensuring accuracy and regulatory standards.
- Implemented **note-taking feature** and long-term data persistence for users.

PROJECTS

BLEMOUT - Full Stack Skincare E-commerce Platform

- Built a full stack skincare e-commerce platform from scratch using React.js, Next.js, Node.js, Express.js and MongoDB.
- Independently handled the complete product lifecycle including UI/UX design, frontend development, backend development, database integration, API development and deployment.
- Designed a modern skincare-focused interface with responsive layouts, reusable components and interactive user experiences.

SANJANA GUPTA

Frontend Developer (React | Next.js | MERN)

Email: sanjana.24gk@gmail.com | **Contact:** +91-9518216871 |

LinkedIn : <https://www.linkedin.com/in/sanjana-gupta-818b92239/>

Portfolio : <https://sanjana-portfolio-ebon.vercel.app/>

- Developed product browsing, product details, shopping flows, order management, coupon functionality, contact forms and order tracking features.
- Integrated MongoDB Atlas for database management and deployed the frontend and backend using Vercel and Render.
- Implemented Razorpay payment integration and structured the application for scalable product and order management.

DIGIHOOKS - Digital Services Web Platform

- Developed a responsive web platform for digital marketing and web solutions using React.js and Tailwind CSS.
- Built **15+ reusable UI components** and structured **10+ service pages** for scalable and consistent design.
- Optimized performance and loading speed, improving experience for **hundreds of users**.
- Designed lead-focused layouts and WhatsApp contact flows to improve user enquiries and conversion experience.
- Ensured cross-browser compatibility, mobile responsiveness, and improved overall UI/UX engagement.

A1 TILE SOLUTIONS - Tiling & Waterproofing Business Website

- Designed and developed a complete business website for a tiling and waterproofing company with a fully responsive frontend.
- **Built a contact form that routes customer inquiries directly to WhatsApp, enabling faster lead response and smoother communication.**
- Implemented Framer Motion animations and interactive transitions as per client requirements to enhance user engagement and give the site a modern feel.
- Created the logo, branding, and overall UI/UX independently.

CERTIFICATIONS & TRAINING

- **Wipro TalentNext Certification – Java J2EE**
- **Power BI** Certification – GUVI (HCL Collaboration)
- **GenAI MasterMind** – (By Outskill)

ACHIEVEMENTS & ACTIVITIES

- 200+ **LeetCode** problems solved.
- Awarded 30% Merit Scholarship Waiver for three consecutive years (2020–2022) at MMDU, Mullana.
- **Hackathon Participation:**
 - SUH 5th Hackathon – Sharda University, Greater Noida
 - Poornima Hackathon 2023 – PIET AICTE IDEA Lab, Jaipur
 - Flipkart Grid 5.0 – Software Development Track
 - HackOn with Amazon – Season 3
- **Leadership & Coordination:**
